

Communication and Visual Education in Homeschooling

2020-1-IT02-KA226-SCH-095188
Erasmus + KA2

Contemporary Scenario

The health emergency of COVID 19 caused numerous radical changes in the management of educational dynamics.

Digital Education and digital platforms have become the main virtual space for the design and delivery of teaching, as well as for the relationship and organization of educational “e-activities”.

Main objectives

Developing digital basic and soft skill

Working on Innovation of Sharing Communication Strategies of Teaching

Target Group

School Teachers and students

Primary school teachers who do not have adequate digital skills to manage distance learning and teachers who need additional soft skills to deal with the pedagogical use of technology in the classroom and their students.

Expected Results

School-Telling

E-learning training course for teachers using infographic cards and visual storytelling methodology.

Agorà

Visual social media platform for primary school teachers and students.

Database

Database of Tools and Methodologies to assess teachers' and students' digital skills
